

Extracurricular Programs

One of the best ways to foster the critical social development of students is through active participation in and involvement with varied activities. This philosophy is at the core of the school's mission and philosophy to develop the well-rounded student. In order to reach this goal, Saint Lawrence Academy provides a wide range of extracurricular experiences for students.

Extracurricular Eligibility

The following academic eligibility guidelines are in effect:

In order to participate publicly in an extracurricular activity at Saint Lawrence Academy, a student must have full academic unit standing and maintain a grade point average of at least 2.0 for the prior grading period (Q1, S1, Q3, S2). If a student does not attain a 2.0 grade point average he/she becomes ineligible until the next official grading period, at which time they must attain a 2.0 GPA or better to reinstate his/her eligibility. Failure to attain the required GPA will continue a student as ineligible.

Probation Period

A student who does not attain a 2.0 GPA in an official grading period will be granted probationary eligibility if the student's grade point average is a 1.8 - 1.99 and he/she has no semester F's for the grading period. If a student's grade point average is below a 1.8 for the official grading period, no probationary eligibility will be granted.

When granted probationary eligibility, the student will remain eligible until the next grade reporting period (Q1, S1, Q3, S2, at which time the student must attain a minimum of a 2.0 GPA to remain eligible. If the probationary student does not attain a 2.0 GPA necessary, the student becomes ineligible until the next grading period.

A student will be granted only one probationary period during any school year, and it will be granted for the reporting period immediately following the student's first failure to attain the required 2.0 GPA. There will be no probationary eligibility granted after the second semester reporting period. Thus, if a student does not attain a 2.0 GPA at the end of the second semester, he/she will be declared ineligible for the first reporting period of the following school year. The student, however, could go to summer school to make up his/her deficiency and become eligible.

Activities

Student Government

Saint Lawrence Academy encourages active participation of students in the operation of the school. An important structure for this purpose is the student government (Associated Student Body, ASB). Student council meets regularly to consider school activities and policies and to plan for the future. Consultation with the administration is fostered because students are extremely valuable to the school's success.
